**CLAIM AMENDMENTS**

Please amend the claims as described below. In accordance with 37 CFR §1.121, a complete listing of all claims is provided below. The status of each claim is indicated in the parenthetical expression adjacent to the corresponding claim number.

1           1. (Currently Amended) A System-system for the management of emergency  
2 situations ~~through, the system comprising:~~

3           a mobile terminal (1,301), ~~equipped with an electronic card (2,302)~~ apt to  
4 implement access functions to a mobile phone network, ~~and the electronic card~~  
5 comprising memory areas (23) ~~containing personal data of the an owner of said~~  
6 electronic card (2,302), ~~said system is characterized in that;~~

7           wherein said electronic card (2,302) ~~has aid functions, which make it the~~  
8 electronic card at least partially operative when said mobile terminal (1,301) is operating  
9 in emergency conditions.

1           2. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 1, ~~characterized~~  
3 ~~in that wherein said mobile terminal includes a display and~~ said aid functions comprise  
4 ~~the a function of visualization of said personal data on a the display (3,303) of said~~  
5 mobile terminal (1,301).

1           3. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 1 or 2,  
3 ~~characterized in that wherein said mobile terminal includes a memory area and~~ said aid

4 functions comprise ~~the~~ a function of transferring said personal data into ~~a~~ the memory  
5 area ~~(6)~~ of said mobile terminal ~~(1,301)~~.

1 4. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system according one of the previous~~  
3 ~~claims to claim 1 or 2, characterized in that wherein~~ said electronic card ~~(2,302)~~ is  
4 provided with a personal identification code ~~(PIN)~~.

1 5. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system according to claim 4, characterized~~  
3 ~~in that wherein~~ said electronic card ~~(2,302)~~, before checking said personal identification  
4 code ~~(PIN)~~, verifies whether there is ~~the~~ a need for ~~an aid, in particular a medical aid, or~~  
5 a need for signaling that someone got lost.

1 6. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system according to claim 5, characterized~~  
3 ~~in that wherein~~ said electronic card ~~(2) with the aid functions allows to choose choosing~~  
4 between the type of the needed help, in particular a need for medical aid or and a need  
5 to signal that someone got lost.

1 7. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system according to claim 5 or 6,~~  
3 ~~characterized in that said check of the wherein~~ said mobile terminal includes a keyboard

4 ~~and a need of an aid is obtained indicated~~ through pressing a key on the keyboard-(4) of  
5 said mobile terminal-(1,301).

1 8. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 5 ~~or 6,~~  
3 ~~characterized in that in the case that wherein~~ if there is ~~the a~~ need of a medical aid, said  
4 electronic card (2,302) enables the forwarding of a message to a service center.

1 9. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 5 ~~or 6,~~  
3 ~~characterized in that in the case that wherein~~ if there is ~~the a~~ need of a medical aid, said  
4 electronic card (2,302) enables a call to a service center.

1 10. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 8, characterized  
3 ~~in that further comprising said mobile phone network, wherein~~ the forwarding of said  
4 message to said service center (304) is detected by suitable means of said mobile  
5 phone network, and further means of said mobile phone network provide for detecting  
6 ~~the a~~ position of said mobile terminal-(1,301).

1 11. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 9, characterized  
3 ~~in that further comprising said mobile phone network, wherein~~ said call to said service  
4 center (304) is detected by suitable means of said mobile phone network, and further

5 means of said mobile phone network provide for detecting the a position of said mobile  
6 terminal-(1,301).

1 12. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 10 or 11,  
3 ~~characterized in that wherein~~ said position is sent to said service center-(304).

1 13. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to any one of the claims  
3 ~~from 8 to 12 claim 5, characterized in that further comprising at said a~~ service center  
4 ~~(304) it is available that includes a database (305) containing personal data of the~~  
5 ~~owner of said electronic card, and wherein if there is a need of medical aid, said~~  
6 ~~electronic card enables forwarding of a message to said service center.~~

1 14. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 13,  
3 ~~characterized in that wherein~~ said service center (304)-transmits said personal data to a  
4 first aid center-(306).

1 15. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 13,  
3 ~~characterized in that wherein~~ said service center (304)-transmits said personal data and  
4 ~~said a~~ position of said mobile terminal-(1,301) to a first aid center-(306).

1        16. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 14 ~~or 15,~~  
3 ~~characterized in that wherein~~ said service center (304) connects said mobile terminal  
4 (1,301) to said first aid center (306).

1        17. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 13,  
3 ~~characterized in that wherein~~ said personal data comprise telephone numbers (308,309)  
4 to be contacted in the case of emergency case.

1        18. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 17,  
3 ~~characterized in that wherein~~ said service center (304) connects said mobile terminal  
4 (1,301) to one or more of said telephone numbers (308,309) to be contacted in the case  
5 of emergency case.

1        19. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 16 ~~and 18~~ 17,  
3 ~~characterized in that wherein~~ said service center (304) connects said mobile terminal  
4 (1,301) to a first aid center (306) and to one or more of said telephone numbers  
5 (308,309) to be contacted in the case of emergency case.

1        20. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 5 ~~or 6,~~

3 ~~characterized in that, wherein telephone numbers to be contacted in case of emergency~~  
4 ~~are stored in said electronic card, and in the case if~~ it is necessary to signal that  
5 somebody got lost, said electronic card (2) ~~with the aid functions enables the telephone~~  
6 ~~numbers to call be called~~ one after the other ~~in a sequence of calls the telephone~~  
7 ~~numbers (308,309) to be contacted in the emergency case stored in said electronic card~~  
8 ~~(2) with the aid functions.~~

1 21. (Currently Amended) ~~The System for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301), system~~ according to claim 20,  
3 ~~characterized in that wherein~~ said sequence of calls is terminated when an answer is  
4 received from one of said telephone numbers ~~(308,309) to be called in the case of~~  
5 ~~emergency case.~~

1 22. (Currently Amended) ~~A Method-method~~ for the management of emergency  
2 situations through a mobile terminal ~~(1,301)~~, equipped with an electronic card ~~(2,302)~~  
3 apt to implement functions for accessing a mobile phone network, ~~and the electronic~~  
4 ~~card comprising memory areas (23) containing personal data of the an owner of said~~  
5 ~~electronic card, characterized in that it comprises the method comprising:~~

6 [[- ]]a first phase of inserting said electronic ~~(2,302)~~card into said mobile terminal  
7 ~~(301);~~

8 [[- ]]a second phase of switching on said mobile terminal ~~(301); and~~

9 [[- ]]a third phase of checking whether ~~an aid is actually necessary~~, said third  
10 phase preceding ~~the a request of a personal identification code (PIN) of said electronic~~  
11 ~~card (2,302).~~

1        23. (~~Currently Amended~~) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method~~ according to claim 22,  
3 ~~characterized in that further comprising, if there is the need of an aid, then visualizing~~  
4 ~~said personal data are visualized on a display (3,303) of said mobile terminal (1,304).~~

1        24. (~~Currently Amended~~) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method~~ according to claim 22 or 23,  
3 ~~characterized in that further comprising, if there is the need of an aid, then transferring~~  
4 ~~said personal data are transferred into a memory area (6) of said mobile terminal~~  
5 ~~(1,304).~~

1        25. (~~Currently Amended~~) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method~~ according to any one of the claims  
3 ~~from claim 22 to 24 or 23, characterized in that wherein before verifying a personal~~  
4 ~~identification code, (PIN) said electronic card (2,302) checks whether an medical aid is~~  
5 ~~necessary, in particular a medical aid, or somebody got lost.~~

1        26. (~~Currently Amended~~) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method~~ according to claim 25,  
3 ~~characterized in that wherein said electronic card (2) with the aid functions allows to~~  
4 ~~choose the type of aid needed, in particular choosing between a need for medical aid,~~  
5 ~~or and a need to signal that somebody got lost.~~

1        27. (Currently Amended) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method~~ according to claim 25 or 26,  
3 ~~characterized in that said check of the further comprising indicating a need of an aid is~~  
4 ~~obtained by means by pressing a key on the a keyboard (4) of said mobile terminal~~  
5 ~~(1,301).~~

1        28. (Currently Amended) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method~~ according to claim 25 or 26,  
3 ~~characterized in that, in case an wherein if aid is necessary, said electronic card (2,302)~~  
4 ~~enables the-forwarding of a message to a service center.~~

1        29. (Currently Amended) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method~~ according to claim 25 or 26,  
3 ~~characterized in that, in case an wherein if aid is necessary, said electronic card (2,302)~~  
4 ~~enables a call to a service center.~~

1        30. (Currently Amended) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method~~ according to claim 28,  
3 ~~characterized in that wherein suitable means of said mobile phone network detect the~~  
4 ~~forwarding of said message to said service center (304), and that further means of said~~  
5 ~~mobile phone network provide for detecting the a position of said mobile terminal~~  
6 ~~(1,301).~~

1           31. (**Currently Amended**) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method~~ according to claim 29,  
3 ~~characterized in that wherein~~ suitable means of said mobile phone network detect said  
4 call to said service center (304), and that further means of said mobile phone network  
5 provide for detecting the a position of said mobile terminal (1,301).

1           32. (**Currently Amended**) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method~~ according to claim 30 or 31,  
3 ~~characterized in that wherein~~ said position is transmitted to said service center (304).

1           33. (**Currently Amended**) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method~~ according to any one of the claims  
3 from claim 28 or 29 to 32, ~~characterized in that wherein~~ with said service center (304) it  
4 is available includes a database (305) with personal data of the owner of said electronic  
5 card.

1           34. (**Currently Amended**) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method~~ according to claim 33,  
3 ~~characterized in that further comprising transmitting said personal data are transmitted~~  
4 from said service center (304) to an aid center (306).

1           35. (**Currently Amended**) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method~~ according to claim 33,  
3 ~~characterized in that further comprising transmitting said personal data and said a~~

4 position of said mobile terminal ~~(1,301)~~ are transmitted from said service center ~~(304)~~ to  
5 an aid center ~~(306)~~.

1 36. (Currently Amended) The Method for the management of emergency  
2 situations through a mobile terminal (1,301) method according to claim 34 ~~or 35~~,  
3 characterized in that wherein said service center ~~(304)~~ connects said mobile terminal  
4 ~~(1,301)~~ to said aid center ~~(306)~~.

1 37. (Currently Amended) The Method for the management of emergency  
2 situations through a mobile terminal (1,301) method according to claim 33,  
3 characterized in that wherein said personal data comprise telephone numbers ~~(308,309)~~  
4 to be called in the case of emergency case.

1 38. (Currently Amended) The Method for the management of emergency  
2 situations through a mobile terminal (1,301) method according to claim 37,  
3 characterized in that wherein said service center ~~(304)~~ connects said mobile terminal  
4 ~~(1,301)~~ to one or more of said telephone numbers ~~(308,309)~~ to be called in the case of  
5 emergency case.

1 39. (Currently Amended) The Method for the management of emergency  
2 situations through a mobile terminal (1,301) method according to claim 36 ~~and 38~~ 37,  
3 characterized in that wherein said service center ~~(304)~~ connects said mobile terminal  
4 ~~(1,301)~~ to an aid center ~~(306)~~ and to one or more of said telephone numbers ~~(308,309)~~  
5 to be called in the case of emergency case.

1        40. (Currently Amended) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method according to claim 25 or 26,~~  
3 ~~characterized in that further comprising storing telephone numbers to be contacted in~~  
4 ~~case of emergency in said electronic card, and in case if it is the necessary to signal~~  
5 ~~that somebody got lost, said electronic card (2) with the aid functions calls the telephone~~  
6 ~~numbers one after the other the telephone numbers (308,309) to be contacted in the~~  
7 ~~emergency case stored in said electronic card (2) with the aid functions in a sequence~~  
8 ~~of calls.~~

1        41. (Currently Amended) ~~The Method for the management of emergency~~  
2 ~~situations through a mobile terminal (1,301) method according to claim 40,~~  
3 ~~characterized in that further comprising terminating said sequence of calls is terminated~~  
4 ~~when an answer is received from one of said telephone numbers (308,309) to be called~~  
5 ~~in the case of emergency case.~~

42. Cancelled.

1        43. (Currently Amended) ~~A System system implementing a the method for the~~  
2 ~~activation of aid calls according to any one of the previous claimed methods claim 22.~~

1        44. (Currently Amended) ~~An Electronic~~electronic card (2,302) ~~for use in~~  
2 ~~association with a mobile terminal and apt to implement access functions to a mobile~~  
3 ~~phone network, the electronic card comprising memory areas (23) containing personal~~

4 data of the owner of said electronic card ~~(2,302)~~, characterized in that it, and wherein  
5 the electronic card is equipped with aid functions, which make it the electronic card  
6 operative at least in part, ~~operative~~ when said mobile terminal operates in an  
7 emergency state.
